

## MY XSite Analytics

### Features

- ▶ Instant access to unit sales, dollar sales and gross profit data from anywhere in the world at anytime.
- ▶ Tracks Performance at the Store Level including items transactions, and departments profit margins.
- ▶ Presents all information through a user friendly interface with graphs and charts easy to understand.
- ▶ Exports all graphs, charts, and reports to multiple programs such as Microsoft Excel, Word, PDF, CSV, and more.

### Benefits

- ▶ Automatic POS data retrieval guarantees access to real-time data.
- ▶ Simple five-minute setup connection process.
- ▶ Affordable monthly subscription without term contract.
- ▶ **NO TRAINING OR SUPPORT REQUIRED!**

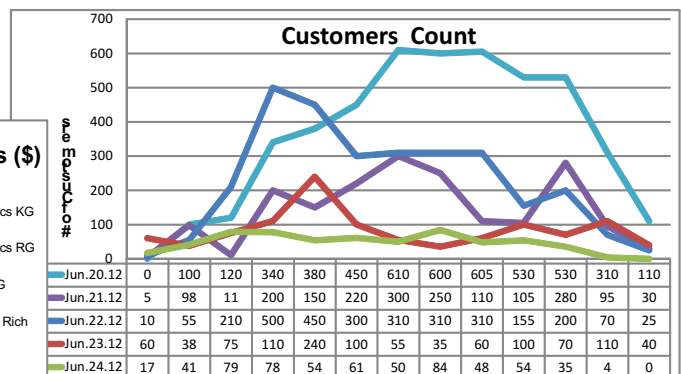

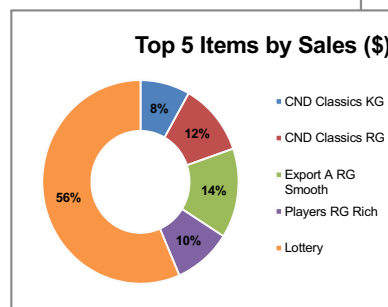

**MY XSite Analytics** is a web reporting online service and enables you to instantly access the most important data. This web application presents real-time operational and transactional data from all locations including, but not limited to, sales transactions, fuel transactions, car wash sales, performance overview, sales summary, and detail financial information. This application shows all data in easy to read graphs and charts to get a better picture of what is happening at the store. The monthly subscription will allow access to:

- ▶ **Powerful Key Performance indicators** to increase efficiency and profit margins.
- ▶ **Intuitive Dashboard Reports** are easy to create and modify for tracking purposes.
- ▶ **Improve decision making** with real-time access to key performance indicators.
- ▶ **Identify & eliminate slow moving items** to reduce your overall level of inventory.
- ▶ **Discover patterns & spot trends** to optimize your assortment of merchandise.

- ▶ **Reduce paperwork** by managing information instead of raw data

This web application requires minimum to none support or training. The service is compatible with Gilbarco G-Site and Passport, AJB Petrolane, Verifone Sapphire and Ruby, and Bulloch among many other Point-Of-Sale systems.
