

# Price Book Manager

## Features

- Manages Price Book data completely.
- Generates shelf tags automatically with basic item information.
- Orders items automatically based on sales and inventory levels.
- Connects to Mobile Computer Scanner.
- Communicates to Head Office location for updates and price changes.
- Reports on sales, inventory valuation, department information, and more.

**Xsite Price Book Manager (XPBM)** is a PC based software program which manages your price book, maintains inventory stock levels, generates automated purchase orders based on historical sales levels and schedules your employees. XPBM runs on a back office PC with Windows XP and 2000, it is compatible with XSite's Mobile Computer application allowing users to keep their data up-to-date. This back office system connects to: Passport, Bulloch Bt9000, and Ruby POS.

The screenshot displays the 'Items' list in the software. The selected item is 'Coke 414ML'. Below the list, a 'Monthly Sales Summary' bar chart shows sales from Jan '11 to Mar '12. A table below the chart provides detailed sales data for the selected item.

Month	Sold	Sales	Cost	Margin
Jan '11	45			
Feb '11	87			
Mar '11	106			
Apr '11	102			
May '11	81			
Jun '11	43			
Jul '11	146			
Aug '11	166			
Sep '11	137			
Oct '11	148			
Nov '11	154			
Dec '11	163			
Jan '12	90			
Feb '12	70			
Mar '12	37			

  

Month	Sold	Sales	Cost	Margin	YTD Sold
Mar 2012	37	36.63	28.20	23.0%	197
Feb 2012	70	104.30	75.60	27.5%	263.62
Jan 2012	90	122.69	87.99	28.3%	191.79
Dec 2011	163	192.36	124.22	35.4%	YTD Margin
Nov 2011	154	167.46	117.35	29.9%	27.2%
Oct 2011	148	153.32	132.69	13.5%	
Sep 2011	137	135.63	104.43	23.0%	
Aug 2011	166	167.53	134.40	19.8%	
Jul 2011	116	138.04	110.20	20.2%	

This item is trending upwards on average 3.1 units per month.

## Automated Purchase Order Creation

Let the system order inventory by using predefined minimum / maximum criteria for each item.

## Integrated Scanning Option

Do inventory counts and receive orders on the mobile computer scanner.

## Multiple Point of Sale Systems Communication

Allows a chain of stores with many different types of POS to view reports and manage the database.

## Easy to Use Interface

Save time finding and editing items. Intelligent product look ups and editing features gets the job done quicker and efficiently.

## Reports at the Item Level

Report on the average sales for each item daily and determine the best location for items based on historical sales data.

- Reduces Costs by eliminating high inventory volumes and employees' long hours of work.
- Improves Capacity since automation allows to deal with much larger volumes.
- Improves Accuracy by allowing the back office software to access data the chances of errors are greatly reduced.
- Stay Competitive by editing the information and changing prices on time to stay ahead of the competition.
