## CONVENIENCE AND PETROLEUMSOLUTIONS THAT WORKS FOR YOUR BUSINESS

XSite Group Inc. is a software development company dedicated to back office software and inventory management solutions exclusively designed to make the organization of retail convenience stores and gas stations easier and more efficient.

We provide software solutions for inventory management, personnel handling, and petroleum data solutions. We offer a variety of advanced back office software for AJB Petrolane, Bulloch BT9000, Gilbarco Passport, VeriFone Ruby, and VeriFone Sapphire.

### Why XSite?

**Simplicity** – All of our products are in a user friendly interface.

**Reliability** – Our professional software development team is committed to respond to all our customers' concerns and requests.

**Excellence** – We are dedicated to provide the best personalized service to customer demands.
